For each of the following I need:

- a) Explain in detail without fancy legal talk (third grade reading level so that the public can understand) and provide the law dictionary the word came out of.
- b) All the possible means of the word.
- c) The meaning you had in mind when composing the sentence.

Section A:

"Action item 18"

To begin, everyone reading court findings has to be able to understand, that is why the judge always asks everyone "Do you understand." For that reason if definitions can not be provided, and I ask that they all be, then writing in a third grade level so that all of the public can understand what the "PUBLIC" Service Commission is writing would be appreciated. If it is not then how can a simple "Man" or "Woman" begin to understand?"
